and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I have my cell phone strictly for emergencies and keep it in my car at all times..I use Tracphone because it is the cheapest as my income is very low and it's all I can afford. The 1.00 a month new charge may make it necessary for me to give up my cell phone which makes me feel secure in my car in case I had an emergency. Thank you for allowing me to voice my opinion.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Lillian K Lohmann
